Experience

Quandify AB, Stockholm – *Full-stack developer*

March 2022 – Present

As a Full-stack developer at Quandify, I specialize in managing data by handling, relaying, processing, and presenting it effectively. Additionally, I focus on managing cloud infrastructure and integrating with our partners via APIs to ensure smooth data flow and maintain secure efficient cloud operations.

Temael i Tumba AB, Stockholm – *Electrician*

August 2018 - March 2022

During my time at university, I worked extra as an electrician. Worked with, among other things, tenant adaption.

Hennes & Mauritz, *Department Manager*

February 2017 - July 2018

As a Department Manager, my responsibilities were personnel planning, scheduling, planning and organizing my department to meet the needs of the business and maximize sales and profitability. I was also responsible for recruitment and training.

Education

Örebro Universitet, Örebro – *B.S Computer Science*

August 2019 - June 2022

Tumba gymnasium, Stockholm – *Elektriska programmet*

August 2011 - June 2014
